04-Apr-2022

Dear Prof. Leoni

It is a pleasure to accept your manuscript entitled "Contrast-agent-free State-of-the-art Magnetic Resonance Imaging on Cerebral Small Vessel Disease – Part 2: DTI and fMRI" in its current form for publication in NMR in Biomedicine.

In some circumstances the reviewer may have uploaded a file. In these instances you can access the reviewer comments by going to your Author Centre at <https://mc.manuscriptcentral.com/nbm>, and opening the decision letter where you will find links to the reviewer attachments.

Your article cannot be published until the publisher has received the appropriate signed license agreement. Within the next few days the corresponding author will receive an email from Wiley's Author Services system which will ask them to log in and will present them with the appropriate license for completion.

Your article has been electronically transferred to John Wiley production and the next correspondence you shall receive will be your proofs sent as a PDF attachment in an email.

This journal offers a number of license options, information about this is available here: <https://authorservices.wiley.com/author-resources/Journal-Authors/licensing/index.html>. All co-authors are required to confirm that they have the necessary rights to grant in the submission, including in light of each co-author's funder policies. For example, if you or one of your co-authors received funding from a member of Coalition S, you may need to check which licenses you are able to sign.

I look forward to receiving further contributions from you in the future.

Sincerely,

Dr. Peter Barker
Editor, NMR in Biomedicine
